Maternal and Child Health Programs SHIO - Suku Hadomi Inan no Oan

Preparing to establish the SHIO

Inauguration ceremony for
SHIO in MOTA ULUN

The local Authority representatives
think and worry about how to
establish a good
SHIO program for their community

Members of the SHIO team visit from
door to door to meet with mothers and
find out about their problems iwth
breast feeding

This baby has malnutrition because
the mother does not know how best
to breastfeed her child

Alola MCH staff gives assistance
about how to breastfeed more
effectively

Maternal and Child Health Programs SHIO - Suku Hadomi Inan no Oan

Alola and SHIO volunteers and SISCa health team work together for the health program

Community members from HUMBUTI cross the river to Access vaccination through the SISCa program

SISCa and Alola SHIO teams walk through the river to provide the SISCa health program to the village

The HUMBUTI community decide to open a new path to assist in accessing health services for their village

The community use the new path but it is not yet complete due to all sorts of obstacles and difficulties

This is a common state of the roads which make travel dangerous and difficult for health teams and community who want to Access services.
